

## Air Forces

Mustafa

Don't crease your air forces  
Just stay inside tonight  
You know what's happening outside  
You say it's okay  
But you tucked your chain  
Like if they take it  
I won't see you for a while  
And I tell you how I feel  
In case it's the last time  
You know the odds, you know the flaws  
It's all by design

And you'll go anywhere, though it ain't safe  
Just know that I care, I'll always care  
And I'll be awake

I'll be awake  
I'll be awake  
I'll be awake

And all these intersections  
Where we've been kept and left in  
I wonder why God keeps us alive?  
To what are we even destined?  
Where we have wives and children  
Or is that not written for you and I  
You know they want what's yours  
And they want what's mine  
And if we're too holy, they think we're folding  
They don't want us to climb

And you'll go anywhere, though it ain't safe  
Just know that I care, I'll always care  
And I'll be awake

I'll be awake  
I'll be awake  
I'll be awake (I'll be)  
I'll be, I'll be awake  
I'll be awake

You see a couple kids runnin' around, playing games  
The dope boys ridin' around, ridin' bikes  
Then you see obviously mans comin' over at the green box  
Just crackin' jokes, kickin' up
