

Bang!

Mustard Plug

5 in and it begins
And I can't get it outta my head
10 friends, we're at it again face to face
Is this the end?
I can't believe what I'm seeing
Everyone was having fun, not again
What I see in my sight it begins
And now it's time to run

Now that it's going down
I can't believe what I'm seeing
This hasn't happened here before

It was a bang bang bang
And they're shooting it up
The kids are having a party
There was another one down
And they're moving along
This wasn't going on before
It was a bang bang bang
And they're keeping it up
I can't stop thinking how lucky
And there's another one down
And they're moving along
This wasn't going on before
