

# Distraction

Mustard Plug

Stand by me, stop stability  
There's nothing left for you to do  
Another state of mind dementia  
Another chance for you to prove

And I say

Two thousand ways for you to say  
Ten thousand ways to prove  
That you will mean what you say  
That you are what you do

It's all the form before the function  
Another step before you moved  
And now you must accept the state and  
Now you must accept the truth

Distraction stopped for nothing  
Distract or stop for you  
Stop action before something  
Will it stop what you do?

Distraction stopped for nothing  
Distract or stop for you  
Stop action before something  
Will it stop what you do?
