

Everyday Wait

Mustard Plug

We are here
It's some kind of perfect
Whatever perfect means
However it may seem
We are here
Do we deserve it?
We can't forget the past
Hold on to make it last

Every day wait
It'll get better
Hold your breath if I'll let ya
Tomorrow can't be far too long
I can't wait
It'll get better
We know we can't be wrong
If we keep holding on

Every day wait
It'll get better
We can't forget the past
Hold on and make it last
Every day wait
It'll get better
We know we can't be wrong
As we keep holding on

One day soon
It'll be done
Just like a dream
Everyone's gone
Tell me it's over
Tell me we won
It'll be perfect

We are close
Show me you're near
Let's make it right
There's nothing to fear
Crossing the line
Everything here
Will be done

When it's too much and you can't
Find a reason to pretend
You know all that you need
Is a dream

And when we can still believe
And everyone that we need
We all still can see
That we won

I can't wait
It'll get better
We can't forget the past
Hold on to make it last

I can't wait
It'll get better
We know we can't be wrong
As we keep holding on

Every day wait
It'll get better
We can't forget the past
Hold on and make it last
Every day wait
It'll get better
We know we can't be wrong
As we keep holding on
