

Hey!

Mustard Plug

Hey!

Slow dancing to the screams of a mad man
Last chance for a tango with a nut case
Waking up in the shadow of oblivion
Holding hands with a psychopathic wannabe
It's a train wreck, posing as a symphony
It's a car crash, stalled out right in front of me
Hanging on, hanging on by a bare thread
Tight rope on the precipice of apathy
Can someone tell me why I even bother trying!

Hey! - nobody listening
Hey! - nobody home
Hey! - nobody listening
Hey! - we're all alone

It's a ghost ship sailing for a lost cause
Storm troopers in the age of Aquarius
Selling cheaply at an auction of redemption
In a wilderness of my own invention
Rabid dogs rabid dogs on the playground
Silence calls, silence falls in the underground
We're just prisoners of our own excesses...
The poisoned bounty of another man's successes
And I'm chewing on another hand that feeds me

Hey! - nobody listening
Hey! - nobody home
Hey! - nobody listening
Hey! - we're all alone

Hey! - nobody listening
Hey! - nobody home
Hey! - nobody listening
Hey! - we're all alone

Hey! - nobody listening
Hey! - nobody home
Hey! - nobody listening
Hey!
