

## Mend Your Ways

Mustard Plug

I think there's something, you should know  
Time to hit the road, find the door, yeah ya gotta go  
'cause I been down this road now a million times  
I've heard every one of your bullshit lines  
If ya think I'm gunna listen just one more time  
You got a problem now!

For all I've said  
And all I've done  
You'll never be  
No you'll never be the one

You've come back, said ya mend't your ways  
Your dimstore smile don't hide what you betray  
I know you ain't no friend of mine  
You better find a sucker further down the line  
I seen the light and the truth is mine  
Ya ain't welcome here
