

Now Or Never

Mustard Plug

I took a train last Saturday night
I left my home, my job and my life
I took apart everything that I know
But it's nothing compared to all the places I'll go

I took a chance, time to start a new life
Open the doors looking back on my life
Sometimes I realize that it's just as it seems
It's time to wake up and live a part of my dream

I can't wait to find it
It's now or never
I don't even mind it breaking me
That's where I wanna go
Got to get behind it
It's now or never
Find out where the wind is taking me

I tried my best to salvage the rest
Taken apart, put together the best
That I could figure out at this time
But it's nothing compared to what I have on my mind

I've broken down, left alone on the road
I've taken chances on the places I go
I'll never ever be a part of the scene
But it's nothing compared to all the places I've been

I can't wait to find it
It's now or never
I don't even mind it breaking me
That's where I wanna go
Got to get behind it
It's now or never
Find out where the wind is taking me

I can't wait to find it
It's now or never
I don't even mind it breaking me
That's where I wanna go
Got to get behind it
It's now or never
Find out where the wind is taking me
That's where I wanna go
