

The All-Nighter

Mustard Plug

I'm going out, out tonight
Got my favorite t-shirt and I'm feeling right
Cheap girls are playing in the basement

You know I came to see you
Everybody's had a break through
Let the night embrace like a long lost friend
Cause the stars they're here to guide you

I was tight but you were tighter
Lost control of the all-nighter
Lost the fight but stood beside her
I was bright but you were brighter

See that girl, the one over there
With eyes like daggers and the long brown hair
Tonight she's gonna make it happen

My friends they want to roll one
So I'm telling them I got the last round
And they got my back so I'll settle down
'Til the lights they burning brighter

I was tight but you were tighter
Lost control of the all-nighter
Lost the fight but stood beside her
I was bright but you were brighter
I was tight but you were tighter
Lost control of the all-nighter
Lost the fight but stood beside her
Lost my way but I'm never gonna leave again

I was tight but you were tighter
Lost control of the all-nighter
Lost the fight but stood beside her
I was bright but you were brighter
I was tight but you were tighter
Lost control of the all-nighter
Lost the fight but stood beside her
Broke my heart but I'll never gonna see her again
