

## What Does She Know?

Mustard Plug

Can someone tell me now what does she know  
Can someone tell me if she tells time  
Can someone tell me if she knows, we know  
Can someone tell her that she is mine

But what do I know  
Cause I always find the time  
I hope that she knows  
You're mine

Cause everyday always end up waking  
And everyday I know just what we are to do  
I know I don't mind, do you?

Can someone tell me now where would we go  
Can someone tell me if we'd be fine  
Can someone tell me if she knows, we know  
Can someone tell her that she is mine

But what do I know  
Cause I always find the time  
I hope that she knows  
You're mine

Cause everyday always end up waking  
And everyday I know just what we are to do  
I know I don't mind, do you?

And every day we can start it over  
And you can show me all there is to do  
I know I don't mind, do you?
