

A Final Warning

Mustasch

It's devastating how we broke the trust
That mother earth has given us
We treat her gifts as simple loot
When all is gone, there's nothing we can do, no!

Against her power, a chance is slim
She's fed up, only give, give, give
Now creatures in the night, so grim
Our mode is set to kill, kill, kill

Mother nature, tell no lie
Soon it's much too late
We're out of time

We're going out on a limb
When we're extinct, there will be no second calling
Though I can't sleep, I have a dream, I believe
We're going out on a limb
Before we all are extinct, this is the final warning

I'm devastated we broke the trust
That mother earth has given us
We treat her gifts as simple loot
I know her vengeance will be cruel

It's tonight, the tide has turned
We are fighting Ragnarök
We're going out on a limb

We're going out on a limb
When we're extinct, there will be no second calling
Though I can't sleep, I have a dream, I believe
We're going out on a limb
Before we all are extinct, this is the final warning

We're going out on a limb
Before we all are extinct
We're going out on a limb
Before we all are extinct
We're going out on a limb
Before we all are extinct, this is the final warning

Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
Though I can't sleep, I have a dream, I believe
