

Blood In Blood Out

Mustasch

You think that I am suicidal
I was born to be defiant

Why should I embrace the silence
There's nothing that can kill this fire
I refuse to hide my talent
I was born to be defiant

This is our call, we're in for life!

Blood in, blood out
Metal fueled by firepower
Blood in, blood out
We're killing it for life

The race is on, I'll ride forever
We're going down this road together
We're not here for being silent
I was born to be defiant

This is our call, we're in for life!

Blood in, blood out
Metal fueled by firepower
Blood in, blood out
We're killing it for life

I am not suicidal
I was born to be defiant

Blood in, blood out
Metal fueled by firepower
Blood in, blood out
We're killing it for life
