

# Borderline

Mustasch

Hey you, I'm borderline  
If you leave me behind  
I'll cut myself in half

I don't want to be all by myself

I need some serious help  
Unstable sense of self  
But confident as hell

I neither want to live or die, that's right

Darkness starts to rise  
Can't see no end in sight  
I'm borderline

This pitch black soul of mine  
Have got no urge to fly  
Bring back my amnesia

Leave me be but please don't by myself

A wink from laugh out loud  
My life is breaking down  
What the hell is going on?  
I neither want to live or die

Darkness starts to rise  
Can't see no end in sight  
I'm borderline
