

Breaking up with Disaster

Mustasch

As a renegade from reality
I've turned the truth into lies
I was not ready to testify
So no-one liked to being around
My thought's were wrong
But now it's under control
I have left all that behind

Right now, on the end of the line
I am breaking up with disaster
I have had it now, I must leave this ride
I got broken down somewhere down the line
Countdown, I must stay alive
I am breaking up with disaster
Somewhere down the line

Bleed and burn and murder
While I'm summoning my wrath
Declining in the shadows
I'm inspecting wounds and scars
The dying days are over
I'm embarking first class car

Right now, on the end of the line
I am breaking up with disaster
I have had it now, I must leave this ride
I got broken down somewhere down the line
Countdown, I must stay alive
I am breaking up with disaster
Somewhere down the line
