

# Contagious

Mustasch

No surrender  
Defenders of the truth  
Nothing lasts forever  
Here's what we gotta do

When you're laughing it's contagious  
It's a little something that's so painless  
These are times that are dangerous  
But pray for wonders, it won't save us

The life we're living goes up in smoke  
Be careful what you're bringing  
It's not a bloody joke

When you're laughing it's contagious  
It's a little something that's so painless  
These are times that are dangerous  
But pray for wonders, it won't save us

These are times that are dangerous  
Pray for wonders, it won't save us

When you're laughing it's contagious  
It's a little something that's so painless  
These are times that are dangerous  
But when you're laughing it's contagious
