

I live a life unsatisfied  
I must break everything I like  
New mistakes, a piece of cake  
I ran into the wall again  
I have died a thousand times  
I don't know if I am alive

It's that voice I hate again  
I must obey  
Desolate  
You're doing great

Scatterbrain, my middle name  
I forced myself into this pain  
Little girl, you've been hurt  
Tell me who's your daddy now

It's that voice I hate again  
I must obey  
Desolate  
You're doing great

You stupid jerk, clean up your dirt  
One day I know I have to learn  
I live my life unsatisfied  
And I break everything I love

It's that voice I hate again  
I must obey  
Desolate  
You're doing great
