

From Euphoria to Dystopia

Mustasch

Last night's jive
Has made me know
To hate my life!

You can do it right
Or wrong, deliberately
But you're gonna go down

You can have a blast
And get some out of it
But you're gonna get it
You're gonna get it at last

Can you see that girl?
A high-heeled beauty queen
You wanna follow her home

Now you see the light
Shine on her bedroom floor
You're trying to get it
You're trying to get through the door

Last night's jive
Has made me know
To hate my life!

From euphoria to dystopia
Did you have enough
