

Midnight Runner

Mustasch

Midnight runner, hey that's me
I'm a troublemaker, here's my history
I was born like a rolling stone
I saw the rocket flying off to the moon
I learned of Nixon and of Watergate
The queen of England was great

Cause I was born a firehorse
Speeding at full force
Begging for some more
You better know what's coming
The zodiac is out of time
All shall fallen down
Blinded by the light
I'm a midnight runner

Martin Luther had a beautiful dream
The church of Satan saw the day of light
Heavy metal was invented by cream
Rock it 'til you die!
Midnight runner, hey, that's me

Cause I was born a firehorse
Speeding at full force
Begging for some more
You better know what's coming
The zodiac is out of time
All shall fallen down
Blinded by the light
I'm a midnight runner

I'm a moonshine child alright
I'm the stars that burns so bright
I'm a predator in the night
Yes I am

Cause I was born a firehorse
Speeding at full force
Begging for some more
You better know what's coming
The zodiac is out of time
All shall fallen down
Blinded by the light
I'm a midnight runner
