

Off My Mind

Mustasch

I wrote you a letter I left by the door
Something that has bothered my mind
I'm not a dictator, I'm just being cold
Someone get this weight off my mind, no

My past denies the truth
I need a better view
I'm done with this abuse
Tangled webs, I'm gonna blow

It slipped through my fingers, got caught in this maze
Frustrations burning up through the night
Don't need no pretending, just lies in disguise
Someone get this weight off my mind, no

My past denies the truth
I need a better view
I'm done with this abuse
Tangled webs, I'm gonna blow

My past denies the truth
I need a better view
I'm done with this abuse
Tangled webs, I'm gonna blow
