This calculations left your arms so now I'm far too strong  
I hear you scream before salvation give me mercy (I figured out)  
You've been squabbling way too much you lost it  
You are out of touch

Who is the answer  
I am the answer!

Repay us all for falling  
Deliver us from evil  
Your destiny is calling  
I'm gonna give you hell  
Alright!

You're in my destiny  
You can't be free  
I'm harder than a rock  
I hear you scream before salvation  
You need mercy  
I bet you're not  
Bring me my rapture or your souls will be forever lost

My blood is cold  
My voice is gone  
My engines fuelled by metal  
You have to steer yourself  
You've got to get your act together  
Do you want to go, believe in me  
Or face the devil
