

# The Hunter

Mustasch

The boar is brawling  
The bull moose is roaring  
But the wolf he kills them all

You've been warned, do not follow my trail  
When you can spot me it is far too late  
Lock and load, it is all that I know  
You better pray not to be in my aim  
In a rage I defended my space  
It's been a constant fight for my name

I am the hunter  
I have always been stalked  
I am the cancer I know  
Hear my call  
You've been warned

On the run like a lone wolf man  
I've been tracking for better days  
I am gone, you won't see me again  
I'm still searching for my golden age  
You've been warned, do not follow my trail  
Scent my smell, it's fucking far too late

I am the hunter  
I have always been stalked  
I am the cancer I know  
Hear my call  
You've been warned
