

Turn It Down

Mustasch

You said your life had become a lie
Don't you come around to tell me you feel awful now
You had your time to break up lies

You feel you're lonely
Why don't you roll it
Make up your mind
Turn It Down

What did I say, get back to bed
Don't pay attention to the voices in your head

Do you wanna roll it
Then you'd better smoke it
Turn It Down
