

All I See

Mutemath

I have looked out on the wonders
That the world can offer
I have watched a perfect love that
Found its ever after
And I have sailed across a lake of
Glass, paved with diamonds
Whenever I find something beautiful

Your face is all I see
Your smile, tears
Your laughter have captured me

I have laid on silver sand and watched
A golden sunrise
Felt the joy in moments when a lifelong
Dream was realized
And I have flown across a painted sky
Of god surrounding
Whenever I find something wonderful

Your face is all I see
Your smile, tears
Your laughter have captured me

And everything around is beautiful
Everything around is love
