

Composed

Mutemath

I have said to myself in a mirror's company
Who's that panicked stranger on his knees
All I want is to reset how I breathe
And slow down the fear I bleed

You keep my head composed
You keep my head afloat
You give this old man hope
You give this old man hope

Light up my eyes, show them where to start
Unearth bright sides buried in their thoughts
I'm a prisoner to all the fight I've lost
So go on, love, you're all I've got

You keep my head composed
You keep my head afloat
You give this old man hope
You give this old man hope

You keep my head composed
You keep my head afloat
You give this old man hope
You give this old man hope
