Marching To The End

Mutemath

Lights widen out
Casting down shadows of doubt
God, give me time
Cause I'm running low on these hours of mine
Change, it hurts for some
But I'm counting on what's yet to come

Marching to the end
I thought
I found a place
A place to start
Marching to the end
Or so it seemed
Then I found a place
To build a dream

Marching to the end
We're marching to begin, oh
Marching to the end
We're marching to begin, oh

If it can't change, we'll leave it out
If it won't break, we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out
If it can't change, we'll leave it out
If it won't break, we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out

Marching to the end
We're marching to begin, oh
Marching to the end
We're marching to begin, oh

If it can't change, we'll leave it out
If it won't break we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out
If it can't change, we'll leave it out
If it won't break we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out
If it can't change, we'll leave it out
If it won't break we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out
If it can't change, we'll leave it out
If it won't break we'll bleed it out
If it can't wait, we'll see it out
We're gonna make believe it out
