

## Patchouli

Muzz

In my sleep  
In my dreams, baby, it's  
In all my dreams

Hear my baby been struggling  
Feels like nothing can keep me straight  
She says "don't leave me" hurts, but angel, stay put  
Stay here with me  
Is this ever deadly?  
She said "Wait and see"

Lover, wait and see  
Ain't my maybe  
Ain't my change  
Ain't my  
Ain't my stain

Since then my brain stem's all contagious  
Fold honesty, she said, "Is this ever deadly?"  
I said "Wait and see"

Lover, wait and see  
And I made it so your light burns  
In my dreams
