

Dance All Night

MÖWE

Getting high on a hill in your old hometown
Where we're too far out
Saw the city with you from the parking lot
I'm still here but you're not

It's time
I learnt to deal without you
'Cause I
Start to miss you Friday night too

'Cause we would dance all night
Underneath the covers
We would dance all night
Dance all night
I take your hand to guide
To things we would discover
When we danced all night
Danced all night

We danced all night
Danced all night
We danced all night
Danced all night

Had a summer with you, going home to Spain
Getting tattoos
Holding hands almost made us forget the pain
Under my skin, aren't you?

It's time
I learnt to deal without you
'Cause I
Start to miss you Friday night too

'Cause we would dance all night
Underneath the covers
We would dance all night
Dance all night
I take your hand to guide
To things we would discover
When we danced all night
Danced all night

We danced all night
Danced all night
We danced all night
Danced all night

We danced all night
Danced, danced all night
We danced all night
Danced all night

I saw you with some guy
Is he your new lover?
Didn't know your back
Girl, bye bye

'Cause now you don't reply
I should delete your number
I should cut that tie
Girl, bye bye
