MÖWE

Sorry

Tonight I'm feeling lonely

Unless you won't console me

I'm better if you leave

Promise

Next time you're gonna love it

We're gonna get above it

But now we'll let it be

Follow my way

We'll turn it on again

Nothing to say

The night is over

You've got it, babe

No bounty for today

No bounty for today

You know I love this game

Na na, na-na, let's play

You know I love this game

Na na, na-na, let's play

You know I love this game

Hurry

This time you got to hurry

Tonight, I have no worries

Why don't you call me?

Honey

I thought of something funny

You wolf, I do the bunny

You got to follow me

Follow my way

We'll turn it on again

Nothing to say

The night is on now

You've got it, babe
