

Good Things

MÖWE

You do do do, do do good things
And I'm so into you

I could tell right from your smile
[?] for a while
I ain't wasting no more time
Got a brightest state of mind

'Cause I'm not gonna run
Or hide from the sun
When it feels like we'd just begun

Oh baby
You do do do, do do good things
And I'm so into you
You do do do, do do good things
And I [?]

When you do do do, do do good things
You do do do, do do good things
You do do do, do do good things
And I'm so into you

You're what my body wants
Yeah all night long
Oh baby you do do do, do do good things
And I'm so into you

After everything we did last night
Ain't something that I don't feel right
Been singing 'til the break of dawn
Ever since you came along

'Cause I'm not gonna run
Or hide from the sun
When it feels like we just begun

You're what my body wants
Yeah all night long

You're what my body wants
Yeah all night long
Oh baby
You do do do, do do good things
And I'm so into you

Oh baby
You do do do, do do good things
And I'm so into you
You do do do, do do good things
And I'm [?]

You're what my body wants
Yeah all night long
Oh baby you do do do, do do good things
And I'm so into you
