

# Lovers Friends

MÖWE

Stop, I know you can see the signs  
I'm not afraid to cross the line  
And turn this friendship into more, than amazing  
Stop, we don't have to change at all  
Old school like a carnival  
Still my bestie but you're more, you're my baby

Cause love is, whatever we wanted  
However we need it, to be

So I say yeah, yeah, yeah  
Every single day, you'll be my homie  
And I say yeah, yeah, yeah  
Every single night, I'ma hold you tight  
We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh, ooh  
We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh, ooh

Stop, half the time we laugh for love  
The other half we cry for love, in secret  
Stop, maybe we're the underdogs  
You're in Venus, I'm in Mars  
But I now we'll beat the arms, believe it

Cause love is, whatever we want it  
However we need it, to be

So I say yeah, yeah, yeah  
Every single day, you'll be my homie  
And I say yeah, yeah, yeah  
Every single night, I'ma hold you tight  
We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh, ooh  
We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh, ooh

Be your lover, be your friend  
Stick around to the very end  
If you'll be my lover, be my friend  
Oh, I'll be your lover, be your friend  
Stick around to the very end  
If you'll be my lover, be my friend

We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh, ooh  
We'll be like lovers, lovers, friends, friends  
To the very, very end  
Ooh  
To the very end
