

# Stay

MÖWE

Pills slipping through my fingers to the floor  
I know where I'm going's somewhere numb

I can feel it in my body and in my bones  
There's no way to escape these ghosts  
Think you're better off without me, but it ain't so  
SOS

As long as I can make you stay  
I wouldn't have it any other way  
Even if it sounds insane  
I know I can make you stay

As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
Stay

Red wine stains on the carpet and my soul  
Eyes bloodshot in the mirror look back without much hope

I can feel it in my body and in my bones  
There is no way to escape these ghosts  
Think you're better off without me, but it ain't so  
SOS

As long as I can make you stay  
I wouldn't have it any other way  
Even if it sounds insane  
I know I can make you stay

As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
As long as I can make you stay  
Stay
