

## dramatic escape

mxmtoon

Take it easy  
Nice and slow  
Wake up early and smell all the roses while you go with the flow  
Read a book  
Get some air  
Did you know that 20 minutes in the sun can do some good if you care

But I'm not looking for a gradual change  
No, thanks I'll just keep planning my dramatic escape

Try to help me  
Though it seems like I don't care  
You got a logical brain making sense of the way that I am  
Am I broken  
Can you come and wind me up  
I can go through the motions hoping I won't break down

But I'm not looking for a gradual change  
No, thanks I'll just keep planning my dramatic escape

I can take another gummy and I'll see how I feel  
Got brain cells to burn and I don't know what's real  
Cause I've been staring at the tv hoping that you'll leave me alone  
No, I'm not a doctor but I'm self diagnosed  
I know what I got but words are stuck in my throat  
Call me a basket case with a fear of change I know

But I'm not looking for a gradual change  
No, thanks I'll just keep planning my dramatic escape

And there's nothing you could say  
To make me change my mind  
So I'll wave and say goodbye  
It's my dramatic escape
