

passenger side

mxmtoon

I've been giving everything I've got
You've been taking all of it (all of it)
You tell me it's a two way street
And I always seem to fall for it

So I'm rolling down the window on the passenger side
Only giving what I get and the rest is mine
My hands are off the wheel I don't wanna drive
I'm gonna sit back and enjoy the ride

I wish that I could take back all the time
Wasted on the lover
Now I'm on the other side

On the passenger side
On the passenger side
On the passenger side
Take me for a ride
On the passenger side
On the passenger side
On the passenger side
Take me for a ride

Used to think your love would be the end
Then I went and found myself again
Funny how we shared more than two years
Now we're not even friends

So I'm rolling down the window on the passenger side
Only giving what I get and the rest is mine
My hands are off the wheel I don't wanna drive
I'm gonna sit back and enjoy the ride

I wish that I could take back all the time
Wasted on the lover
Now I'm on the other side
Wish that I could take back all the time
Wasted on the lover
Now I'm on the other side

On the passenger side
On the passenger side
On the passenger side
Take me for a ride (Now I'm on the other side)
On the passenger side
On the passenger side
On the passenger side
Take me for a ride

I wish that I could take back all the time
Wasted on the lover
Now I'm on the other side
