Sad disco  
Sad disco

Friday night and she's bored at home  
Her friends are gone, there's no place to go  
With ABBA on her cracked iPhone  
It's her own sad disco

Boys don't call and the girls won't stay  
And mom and dad are in Half Moon Bay  
She finds herself in the house alone  
It's her own sad disco

She got something deep down inside her  
When she move, she walkin' on water  
Takes your hand when you're bored and alone  
It's your own sad disco

Sad disco  
Sad disco  
Takes your hand when you're bored and alone  
It's your own sad disco

All grown up, 21 years old  
Singing on her hairbrush microphone  
Kinda looks like me with the lights down low  
It's her own sad disco

She got her hair down  
Body off the ground  
Hands up in the air like she'll never put em down  
She's got all night to dance around  
And you know she's gonna let it out

She got something deep down inside her  
When she move, she walkin' on water  
Takes your hand when you're bored and alone  
It's your own sad disco

She got something deep down inside her (She's gonna let it out)  
When she move, she walkin' on water  
Takes your hand when you're bored and alone  
It's your own sad disco (She's gonna let it out)

Sad disco (She's gonna let it out)
