

I've been tryna keep the scales in balance  
Find a way to feel the things that I can't see  
I've been tryna reach the rings of Saturn  
Retrogradin' on my frequency

Is there more than just a cosmic silence  
Out beyond a place a telescope can be  
I've been shoutin' at the constellations  
Wishin' for a sense of harmony  
Wishin' for a sense of harmony

I can't quantify my pain  
The pros and cons, they weigh the same  
Feel like I'm fallin', keep fallin' forever

I've been movin' through the shapes and colors  
Felt the burnin' of the sun below my feet  
Never hurt as much as never knowin'  
Why I can't find in-between  
The why I can't find in-between

I can't quantify my pain  
The pros and cons, they weigh the same  
Feel like I'm fallin', keep fallin' forever  
Feel like I'm fallin', keep fallin' forever  
Feel like I'm fallin', keep fallin' forever  
Feel like I'm fallin', keep fallin' forever  
Feel like I'm fallin', keep fallin' forever

Feel like I'm fallin', keep fallin' forever
