We grew apart
I watched you from afar
As your wings began to grow
I had to trust you on your own
I couldn't believe
But I couldn't disagree
That our time has phased on out
A new chapter's brought about

I just feel so alone
And I'm learning to be okay all on my own
It's hard to picture life without you
Time moves on, you fade away, but I'll make it through
Oh, I'll make it through
Oh, I'll make it through

I tend to forget
That I shouldn't
People come and then they go
At this point I should know
I'll cherish the memories
And retell the stories
Though you're gone I won't forget you
There's just times where I feel blue

And I've felt so alone
But I've learned to be okay all on my own
It's hard to picture life without you
Time moves on, you fade away, but I'll make it through
Yeah, I'll make it through
Yeah, I'll make it through
