

Are you scared you lost a daughter  
Every moment I get older  
Looking through your eyes and I  
See the girl I left behind

Is it really me in the mirror  
My lines keep digging deeper  
Hands are looking more like yours  
Feel our bodies keeping score

You know  
How fast life goes  
You got it all  
On video

Pieces of myself  
Littered round the world  
Watching VHS  
I'm a younger girl  
Sitting by my side  
Smile on your face  
It's so bittersweet  
I'll be you one day

I'll be you one day

Wonder how I got so bitter  
I used to be so sweet  
Sometimes I really miss her  
The kid I used to be

You know  
How fast life goes  
You got it all  
On video

Pieces of myself  
Littered round the world  
Watching VHS  
I'm a younger girl  
Sitting by my side  
Smile on your face  
It's so bittersweet  
I'll be you one day

I'll be you one day
