MxPx

I'm not sure that we had this year was with a President  
And then we went to supper saw [?] played under some tents  
Made a record called it Panic, vegans what you havin'?  
Three weeks at the clubhouse with our producer, Gavin (Gavin)

Christmas is coming up soon  
It's November but I thought it was June  
Every single year seems to fly right by  
And that's why I'm writing this tune, it's 2005  
And I'm still alive  
It's 2005 and I'm still alive

We met back in the Warped Tour and made a lot of fans  
We met a lot of people and a lot of them were bands  
We flew away to Europe and our luggage all got lost  
We didn't miss a show, we didn't care about the cost

Christmas is coming up soon  
It's November but I thought it was June  
Every single year seems to fly right by  
And that's why I'm writing this tune, it's 2005

On to Australia  
And then Japan

It's 2005 and I'm still alive  
It's 2005 and I'm still alive

(It's 2005) Now we're right up to it [?]  
(It's 2005) Yet again America, we're ready to awake  
(It's 2005) 'Til it's almost over we'll be [?] 'round the town  
(It's 2005) Spending Christmas time with family and friends

It's 2005 and I'm still alive  
It's 2005 And I'm still alive  
Still alive, yea-yea-yea-yea-yeah
