

All About Nothing

MxPx

What would happen if I wrote a song all about nothing?
What would happen if I say the things that're on my mind?

I had an accident
And now my mind is a little bent
The important thing is I'm really not OK

What would happen if I wrote a song all about nothing?
What would happen if I say the things that're on my mind?

Somewhere along the way,
I forgot the names of all the days
This is a waste of time
But I don't care because it's mine

What would happen if I wrote a song all about nothing?

We'll sort the whole thing out
Over a thousand cups of coffee
We'll sort the whole thing out
'Til lunch

What would happen if I wrote a song all about nothing?
What would happen if I say the things that're on my mind?

What would happen if I wasted all your time?
