

# Despise

MxPx

I've got no sympathy  
We don't have to agree  
Cause I'm not you and you're not me  
So please just go away  
I don't wanna buy your life  
Just leave me alone and I'll be fine

Black coffee like my dreams  
Taste bit of [?]  
I feel the rage inside me rise  
I've bet so [?]  
That I despise  
I despise

I can't tell you what I really think  
That would only make things worse  
Some call it a blessing, I call it a curse  
Sometimes I wake up dead  
With that thought inside my head  
Just to free yourself and be force fed

Black coffee like my dreams  
Taste bit of [?]  
I feel the rage inside me rise  
Each time I'm [?]  
That I despise  
I despise

Don't touch me, don't come near  
Why are you even here?  
I've got some news for you  
Wish you would disappear

Black coffee like my dreams  
Taste bit of [?]  
I feel the rage inside me rise  
I've bet so [?]  
That I despise  
I despise  
That I despise  
I despise
