

Sittin' in my car drinking from a flask  
Layin' future plans, worked up the nerve to ask  
Nothin' can prepare you for the way we all feel  
When you're so in love it just doesn't seem real

I'm such a disaster for you  
No one else could run faster for you  
I'm such a disaster for you  
I can't stand up straight  
I'm fallin' over, over and over

Stuck in the middle of a hurricane  
Comin' at you fast, the days have gone insane  
When I need peace I find it back at home  
You are my anchor no matter where this vessel goes

I'm such a disaster for you  
No one else could run faster for you  
I'm such a disaster for you  
I can't stand up straight  
I'm fallin' over

I had the best time with you  
Running 'round the house, all laughin'  
Wishin' this moment was forever lasting  
And then I find myself callin' you  
I find myself callin' you  
I find myself callin' you  
Yeah you  
I find myself callin' you

I'm such a disaster for you  
No one else could run faster for you  
I'm such a disaster for you  
I can't stand up straight  
I'm fallin' over, over and over

I can't stand up straight  
I'm fallin' over, over and over  
I can't stand up straight  
I'm fallin' over, over and over
