

One Zero Zero

MxPx

I know this makes no sense and we just met
But I promise this time that you won't forget
There's recurring numbers in everything we see
Including jokes that make us laugh and our chemistry
Is this called chemistry?

I should learn to code
But all I know
Is we would get along like

One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero
One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero

There's so much in this world I don't understand
This data driven life has really gotten out of hand
That doesn't mean I hate it, quite the opposite
I'd love to learn a lot or just a little bit
I said a little bit

How to code
But all I know
Is we would get along like

One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero
One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero

I'm standing back in awe of what seems possible
The future is so big and unpredictable
I wanna drag my head to the surface
Of whatever this is that's got us

I still don't know
How to code
'Cause all I know
Is all I know
And we still get along like

One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero
One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero

One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero
One, one, zero, one, one, one, zero
One, one, zero, one, one, zero, zero
