

## This Is What You Told Me

MxPx

I've been through a lot  
But not a lot of this one thing  
Chance took me by surprise but surprise!  
Somehow I came out like a diamond ring  
And this is what you told me

Don't fear a little failure  
Grind through all the helter-skelter  
Get up everyday and feel grateful  
Then tomorrow do it even better

As the days untie the hours fly  
Feels like life is flying by  
It's a brave new world only a mother could love  
This is what you told me of

Don't fear a little failure  
Grind through all the helter-skelter  
Get up everyday and feel grateful  
Then tomorrow do it even better  
Even better

Some chances that we take  
Don't work out like we planned them  
But looking back I see  
Life always seemed so random  
We hold the common thread  
You've seen it with your own eyes  
I heard the words you said  
Why does the balance seem so hard to find?

Don't fear a little failure  
Grind through all the helter-skelter  
Get up everyday and feel grateful  
Then tomorrow do it even better

Cause you shine you shine  
You shine under pressure  
You shine you shine  
You shine under pressure  
You shine you shine  
You shine under pressure  
You shine  
You shine under pressure
