

## Worries

MxPx

I know you've got a lotta worries  
And you know I've got a lotta worries  
We can worry them away  
And live to see another day

When you feel your stomach turnin' in a hurry  
Mouth dry, hands shakin', vision blurry  
From the bad economy  
More than when you're puttin' up with me

I'm not worried, I'll be fine  
Just want you to know you're on my mind  
But I'm not worried, just worried sick  
A little dose of you might do the trick  
You're the cure for worried sick

This might not be what you expected  
This might be the one time that I stand corrected  
And it's hard to be right (right)  
It's easier to fight (fight)

I'm not worried, I'll be fine  
Just want you to know you're on my mind  
But I'm not worried, just worried sick  
A little dose of you might do the trick  
You're the cure for worried sick

I'm not worried, I'll be fine  
Just want you to know you're on my mind, yeah!  
But I'm not worried, just worried sick  
A little dose of you might do the trick  
You're the cure for worried sick  
You're the cure for worried sick
