## My Enemies & I

Eyes of a fiend  
I can make you just like me  
Eyes of a fiend  
I can make you just like me

I know you feel you want to disconnect  
As you feel the cold ghostly hand tightening around your neck  
The slime, the disgust in the person you see  
Summoning everything you ever wanted to be

Take it  
I know that you want it  
Take it  
You could have everything

You could be  
So much more than what you let them see  
When you're ready to stop settling  
I can show you how to let it in  
Seeing through the eyes of a fiend (eyes of a fiend)  
I can make you just like me

Eyes of a fiend  
I can make you just like me

And when you're ready for it  
Try your best not to panic  
Past the point of return, voices obscured  
The image is all blurred

Eyes of a fiend  
I can make you just like me (just like me)  
Eyes of a fiend  
I can make you just like me (just like me)

Take it  
I know that you want it  
Take it  
You could have everything

You could be  
So much more than what you let them see  
When you're ready to stop settling  
I can show you how to let it in  
Seeing through the eyes of a fiend (eyes of a fiend)  
I can make you just like

You could be  
So much more than what you let them see  
When you're ready to stop settling  
I can show you how to let it in  
Seeing through the eyes of a fiend (eyes of a fiend)
