

Lobotomy

My Enemies & I

Like a child watching puppets at a matinee
They don't see the hand controlling every move they make
Having too much fun to see
The man that's pulling all the stings
Hiding just beyond the curtain

You've got freedom, you've got rights, but know you're still a slave
You don't see the hand controlling every move you make
Step in line and you'll receive
Your worry free lobotomy
Waiting just beyond the curtain
(Just beyond the curtain)

Happy and free
As they all dance on a string
Let's turn the music up louder
Blocking out everything
While you help create
The all-American hate
I'm not a puppet on a string
I'm not a candidate for this lobotomy

It's so much easier to laugh and look the other way
The power that be broadcast the image everything's ok
Nobody sees that there's a war
Happening right outside your door
They hide it just beyond the curtain
(Just beyond the curtain)

Happy and free
As they all dance on a string
Let's turn the music up louder
Blocking out everything
While you help create
The all-American hate
I'm not a puppet on a string
I'm not a candidate for this lobotomy

No strings pulling me
Yeah

Like a child watching puppets at a matinee
They don't see the hand controlling every move you make
Having too much fun to see
The man that's pulling all the stings
Hiding just beyond the curtain
Just beyond the curtain

Happy and free
As they all dance on a string
Let's turn the music up louder
Blocking out everything
While you help create
The all-American hate
I'm not a puppet on a string
I'm not a candidate for this lobotomy

For this lobotomy
