

The Kult Konnection

My Life with the Thrill Kill Kult

Watch out, we're gonna take over
TKK's gonna rev your motor
Cut the lines that make you sober
Hell no way, the show's not over
We've gotta a bomb to set on fire
We've gotta drug to take us higher
We control the medication
Turn on your imagination

Tear it up, I'm the master of the mindway
Rockin' on the highway
Rippin' up the airwaves

Give it up, get a groove on man
We're gonna eat you out
We're an American band

Gotta drug to take us higher
We've gotta a bomb to set on fire

There's no one here but a lot of crazy people
Crazy people, crazy people, crazy people

Watch out, we're gonna take over
Turn on your imagination
