

## Spinning My Wheels

### My Morning Jacket

I've been wrong for so long  
Risking my life for the sake of the song  
Stayed committed to the holy ghost  
Even though the devil is who I needed most

I held white snow in the palm of my hand  
And watched it turn back into water again

Just spinning my wheels  
Just spinning my wheels  
Just spinning my wheels  
Gotta find a way out...  
A way out of here

Hypnotized by the city lights  
Hypnotized by the countryside  
Hypnotized from endless traveling  
Hypnotized from doing the same old thing

Well, it don't matter where you settle down  
And it sure don't matter where they put you in the ground  
The only point it seems is to break the spell  
To love another day and live to tell

Done spinning my wheels  
Done spinning my wheels  
Done spinning my wheels

Finding a new day  
A new way  
A new day  
A new way  
To be here (Done spinning my wheels)  
To be here (Done spinning my wheels)  
(Done spinning my wheels)  
Ah-ooh
