

# Plastic Flesh Garden

My Passion

Sit and wait for me  
A sip of rippling orange and gin  
Take two  
She came for me  
A vision in red black red  
And then she dance  
And then dance  
And then  
And then dance  
Take three  
Turn back to me  
A clattering shattering wall of noise  
And she calamity queen  
Get hot then hotter  
And then she start to dance  
And then dance  
And then  
And then dance

I'm digging a hole in your plastic garden  
Come and lay down  
In my playground  
If you dare  
Well-  
Hell hasn't frozen over here though  
You're still frightened  
Don't be frightened  
Don't be scared

Pick me CCTV  
A psychedelico spinning and grinning  
Get you  
Your back to me  
All undulating and seven star rating  
And dance  
And then dance  
And then  
And then dance

I'm digging a hole in your plastic garden  
Come and lay down  
In my playground  
If you dare  
Well-  
Hell hasn't frozen over here though  
You're still frightened  
Don't be frightened  
Don't be scared
