

## Highly Explosive

### My Ruin

I've got a knife inside my back  
And it's diggin' deeper everyday  
I've got a letter in my hand  
With words I know I need to say  
It makes me sick to think we ever trusted or believed you  
So stay the fuck away from us cause we no longer need you

I'm so ready - yes I'm ready - to unload again  
Highly explosive - You were warned I might explode again  
Yeah we're ready - we're so ready - here we go again  
You tried to stop us once but this is now and that was then!

I'm burning up again - I'm on fire motherfucker  
Might explode again - You're a lying motherfucker

I've read those ugly things you said  
And I just can't get em out my head  
I've heard about your nasty mouth  
The trash I know you talked all over town  
It makes me sick to think we ever trusted or believed you  
So stay the fuck away from us cause we no longer need you

I'm so ready - yes I'm ready to unload again  
Highly explosive - You were warned I might explode again  
Yeah we're ready - we're so ready - here we go again  
You tried to stop us once but this is now and that was then

I'm burning up again - I'm on fire motherfucker  
Might explode again cause you're a lyin' motherfucker  
And you know I'm crazy  
A ticking time bomb baby  
That's right I'm fuckin' crazy  
Highly explosive baby  
I suggest you stay the fuck away from...me.
