You speak so softly
But you say nothing
A kiss so lovely
It tastes like nothing (come break)

Come break me down (me down)
Collect me now (me now)

We move so slowly
It feels like nothing
Your scent so holy
Can't get you off me (come break)

Come break me down (me down)
Collect me now
(We know you) stay out
Stay out

It feels like like nothing [x4]

Come break me down (me down)
Collect me now
(We know you) stay out
Stay out (come break)
Stay out (come break)
Stay out
